

Our leading heat pumps offer these features:

SilentComfort™ technology for peace, quiet and comfort

PermaGuard™ cabinet for long-lasting protection against rust and corrosion

Proprietary cabinet design makes them more durable and easier to install and service

SmartHinge™ design allows for easy coil cleaning

Dual-fuel compatible with Lennox® furnaces for added cost savings

	The Most Precise And Efficient Heat Pump Available SL25XPV	Precise, High-Efficiency, Digital-Ready, Two-Stage Heat Pump XP21*
Energy Efficiency	Up To 23.00 SEER2 10.30 HSPF2	Up To 17.80 SEER2 8.20 HSPF2
Ultimate Comfort System™ Product	☑	
Stages Of Cooling	Variable-Capacity Inverter Compressor	Two-Stage Compressor

Seasonal Energy Efficiency Ratio (SEER2)

This rating determines a heat pump's efficiency. The higher the SEER2 rating, the more energy-efficient it is.

Heating Seasonal Performance Factor (HSPF2)

A heating efficiency rating for heat pumps. A higher-rated HSPF2 heat pump will result in less energy use and increased energy savings over the life of the system.

Ultimate Comfort System™ Product

Combines the best of the Dave Lennox *Signature*® Collection to create an unprecedented whole-home comfort system that seamlessly and intelligently works together to stay finely tuned to your home and deliver consistently clean, perfect air.

Fully Digital

A truly digital product is designed to pair with the Lennox S40 Smart Thermostat as part of a fully communicating home comfort system. Sensors in the equipment allow the thermostat to diagnose issues and automatically make system adjustments to more accurately and efficiently maintain temperature, humidity and air quality.

ENERGY STAR® Certified

HVAC equipment with the ENERGY STAR label meets or exceeds federal guidelines for energy-efficient performance.

Dual-Fuel Compatibility

An HVAC system that pairs an electric heat pump with a gas furnace and alternates between the two fuel sources to maximize comfort and efficiency.

Quantum™ Coil

With years of rigorous testing under the most extreme conditions, our Quantum Coil—featuring a proprietary aluminum alloy exclusive to Lennox—designed to weather the harshest elements.

Precise Comfort® Technology

Finely-tunes and adjusts cooling output in tiny increments, perfectly matching your energy use with your comfort, making it the highest-efficiency, variable-capacity heat pump available.

Lennox TruHeat Performance

Delivers a greater amount of heat compared to traditional heat pumps, resulting in a feeling similar to the rich, warm comfort of a gas furnace—even during the coldest outdoor temperatures.

Warranty Your Way™

All Dave Lennox *Signature*® Collection models come with a 10-Year Limited Warranty on compressor and covered components. For more information, visit www.Lennox.com/WarrantyYourWay.

How does single-stage, two-stage & variable-capacity work?

72°
Single-Stage

Unit is either on or off, creating wide temperature swings.

72°
Two-Stage

Unit runs at either low or high speed, using the lower speed 80% of the time.

72°
Variable-Capacity

Unit runs at low most of the time, using only the amount of energy necessary to meet comfort need.
